Dear Parents / Carers

Re: Year 2 Science Workshop

Year 2 children have been learning all about different modes of Transport in their History lessons. They have also been looking at vehicles in DT and working on mechanisms that help vehicles to move.

FizzPop Science is a company that hosts many science workshops and shows . They will be visiting us, at school, on **Friday 15th February 2019**. The children will not need to bring anything special on the day.

They children will be experimenting with different types of transport including learning about why hot air balloons rise up and how a rocket is launched. This will be a great cross curricular addition to their learning.

Please kindly contribute **£5.50** towards the total cost of the workshop by making payment via ParentPay by Friday 1st February 2019.

Jazakallah Khair for your co-operation,

Ustadha S. Gaffar
(Year 2 Class Teacher)
